

Hollow Man

Words & Music by Gary Soloman

**Temptations rolling in
There is thunder in the sky
Desperation falling down
Red ivory on the ground**

**How long will this go on?
How long before there is nothing left at all?**

**Big hearts were broken
Caught between the distance of all those lies
A memory hanging on a thread
A long, long long time ago**

**Called upon the spirit of desire
Pulls you in right down to the wire
How long will this go on?
How long before there is nothing left at all?**

**Did you put your faith in the Hollow Man?
Did he lead you to the promised land?
Did your hunger blind your way?
Your living in a hologram
Hollow Man**
